

LA PALMA DISTRICTS 2 & 4 WILL HAVE AN ELECTION ON NOVEMBER 3, 2026.

The La Palma Record

Campaign websites tell you what a candidate wants you to believe.
The public record tells you what actually happened.

If you haven't been paying attention what's been happening in our city, what you learn may startle you.

A decade of city governance, documented entirely from public records, court filings, independent news articles, and sworn disclosures.

\$25.3M

An **INCREASE** in total pension debt - not the 9-year payoff promised in 2016 with Measure JJ

\$8.4M

Discrimination and retaliation jury verdict against the City of La Palma, December 2025.

\$18,091

Public funds spent on Measure W by sitting council members who benefited from it

Up to 20

Years a council member can now serve without a break

4

Police chiefs in about 26 months

3

Years the council refused to implement video livestreaming before they were forced to by Sacramento

What Voters Can Do

A candidate's answers — and any refusal to answer any of them completely — will tell you what you need to know. Every question below traces to a specific, documented gap in the public record at LaPalmaRecord.org.

☐ **01** Will you vote to restore twice-monthly regular council meetings? (This requires only a council resolution — three votes could do it at any meeting.)

☐ **02** Will you vote to commission a truly independent, external investigation of the police department's complaint-handling practices, with authority to review records and interview personnel?

☐ **03** Will you direct staff to present a full public accounting of every Measure JJ promise made in 2016 against actual results — pension payoff, the \$20 million in savings, reserves, the stabilization fund, and the Utility Users Tax?

☐ **04** Will you vote to repeal the two-member consent requirement for placing items on the council agenda?

☐ **05** Will you support posting all campaign finance filings on the city website, as neighboring cities already do?

☐ **06** Did you support or oppose Measure W, and did you or your campaign receive support from any sitting council member or their family?

☐ **07** Will you commit to never spending General Fund money on consultants to draft or promote ballot measures that extend council members' own tenure — and to disclosing, in any city-funded material about a future measure, every provision that benefits sitting incumbents?

☐ **08** Before approving any future promotion of a near-retirement employee into a higher-paid position, will you require a public staff report disclosing the projected lifetime pension cost of that promotion?

☐ **09** Do you believe the City Manager should be an independent professional administrator rather than a former council colleague — and will you support recruiting professional city management for future vacancies?

☐ **10** Will you support amending Measure W so that years already served count toward the term limit — closing the provision that lets a sitting member serve up to 20 consecutive years without a break?

☐ **11** Will you support establishing the Pension Stabilization Fund promised to Measure JJ voters in 2016 — and on what timeline?

☐ **12** Will you require a competitive, externally run search — rather than an internal appointment — for the next City Manager, Police Chief, or City Attorney vacancy?

These questions are drawn directly from documented gaps in the public record. They are offered so voters can ask their own questions of candidates — not as an implied answer.
