THE LA PALMA RECORD

QUESTIONS WORTH ASKING

Put the same questions to every District 2 and District 4 candidate. Each one traces directly to a specific, documented gap in La Palma's public record.

☐

01 Will you vote to restore twice-monthly regular council meetings? (This requires only a council resolution — three votes could do it at any meeting.)

☐

02 Will you vote to commission a truly independent, external investigation of the police department's complaint-handling practices, with authority to review records and interview personnel?

☐

03 Will you direct staff to present a full public accounting of every Measure JJ promise made in 2016 against actual results — pension payoff, the \$20 million in savings, reserves, the stabilization fund, and the Utility Users Tax?

☐

04 Will you vote to repeal the two-member consent requirement for placing items on the council agenda?

☐

05 Will you support posting all campaign finance filings on the city website, as neighboring cities already do?

☐

06 Did you support or oppose Measure W, and did you or your campaign receive support from any sitting council member or their family?

☐

07 Will you commit to never spending General Fund money on consultants to draft or promote ballot measures that extend council members' own tenure — and to disclosing every provision that benefits sitting incumbents?

☐

08 Before approving any future promotion of a near-retirement employee into a higher-paid position, will you require a public staff report disclosing the projected lifetime pension cost?

☐

09 Do you believe the City Manager should be an independent professional administrator rather than a former council colleague — and will you support recruiting professional city management?

☐

10 Will you support amending Measure W so that years already served count toward the term limit — closing the provision that lets a sitting member serve up to 20 consecutive years without a break?

☐

11 Will you support establishing the Pension Stabilization Fund promised to Measure JJ voters in 2016 — and on what timeline?

☐

12 Will you require a competitive, externally run search — rather than an internal appointment — for the next City Manager, Police Chief, or City Attorney vacancy?
